Passionate about nursing? Take a look at RDNS.

Australia's largest home nursing provider, Royal District Nursing Service (RDNS) is a dynamic, vibrant and forward thinking organisation that offers exciting career opportunities for nurses on the move.

A career path filled with possibilities awaits as you embark on your journey at RDNS.

Diversity of clients, clinical conditions, environments and experiences backed up by supportive colleagues, the latest computer technology and education and training are yours to embrace.

Competitive remuneration, attractive salary packaging options and other benefits such as regular ADOs are all part of what to expect.

RDNS has been operating since 1885 and provides general and specialist home nursing care across a range of areas, including aged care; medication, wound, continence and diabetes management; palliative care; post acute care; stomal therapy and more.

As independent, autonomous health professionals, RDNS nurses help clients maintain independence, control and choice in relation to their healthcare. They work closely with clients, their families, carers and other health professionals to restore and maintain health and quality of life, as far as circumstances allow. To be part of RDNS is to be part of a special team of nurses doing a specialised job.

If you are passionate about your nursing and want to see what you do each day make a real difference to people, then RDNS is worth a look at. They offer flexibility and highly rewarding relationships with clients and colleagues alike. You can look forward to a professional environment with team support, mentoring and genuine career pathways.

Expect a leading edge technology environment where nurses are equipped with the latest in mobile computer devices. Enjoy the ever-present opportunity to grow and diversify your skills and knowledge by undertaking in-house education and training. Enjoy the diversity and challenges that will confront you each working day and sustain your passion, pride and professionalism.

RDNS employs Division 1 and Division 2 nurses and has sites right across greater Melbourne. They have also recently opened for business in regional Victoria, New South Wales and New Zealand.

Wherever the location, each day at RDNS is teeming with opportunities to change people's lives through one-on-one professional nursing. And no day is ever the same. Join their Graduate Nurse Program or work full-time, part-time or as a casual nurse.

RDNS has appointed HealthStaff Recruitment to assist with the recruitment of the best Nurses.

Please contact HealthStaff Recruitment today to discuss how you can become part of the RDNS team.

Spotlight on Barbara Reither – Recruitment Administrator

Barbara Reither started at the Melbourne office 5 months ago to support the HSR team. She is often the first contact for our candidates and she streamlines all the visa and registration paperwork for our candidates. Barbara is an enormous support for our team of Consultants. Barbara is enjoying the part-time role that allows her to multi-skill at her desk in the mornings and be outdoors for some exercise in the afternoons. Barbara was lucky enough to spend 4 weeks travelling in Asia over Easter, where all that exercise came in handy for walking the Great Wall of China.

Physiotherapy jobs in the USA

Calling all Physio's...
Have you dreamt of taking your skills abroad? Here is the perfect opportunity!

HealthStaff Recruitment offers a specially designed USA Work & Travel program for Australian trained Physiotherapists.

HealthStaff Recruitment in conjunction with our US partner Cirrus Allied, one of the oldest providers of therapists in the US, offers permanent positions and travel assignments in Hospitals, Private Practice and Aged Care Centres across the USA.

There are plenty of opportunities to work in most states from Florida to Idaho, from Virginia to Texas and from Washington to Ohio.

We are looking for Physio's who can commence working in the USA late this year or early next year.

Do I qualify for this unique program?

1. You should hold an undergraduate Physiotherapy degree from an Australian University that is no less than 4 years in length
2. We require a 24 month commitment to work in the USA (in some cases we may be able accept a 12 month commitment)
3. As you will be employed by our American partner your CV will be reviewed by Cirrus Allied and if deemed suitable you will have a phone interview with one of their Chief Clinical officers
4. After your successful interview you will be offered an employment contract. When you accept the terms and conditions we prepare you for the next step
5. All Australian trained Physiotherapists must apply for a Foreign Credentialing Commission on Physical Therapy (FCCPT) Type 1 Certificate and then sit for the

National Physical Therapy Examinations (NPTE) in the USA. You must pass this exam in order to be licensed as a Physiotherapist and to work in the USA.

Candidates from the UK, Ireland and New Zealand are welcome to apply. Subject to passing the NPTE, we can sponsor you on a H1B Visa.

6. HealthStaff Recruitment will assist you with the preparation of your FCCPT application and help you prepare for the NPTE. We will fly you to Honolulu, Hawaii to sit the exam. The FCCPT process can take about 3 months and the NPTE process can take about 2 months.
7. Once you pass the NPTE, we will arrange for an interview with your hospital worksite and then arrange for your work visa. Australian citizens are eligible for an E-3 visa, this allows you and your spouse (not de-facto) to enter the USA and work for the employer that has provided the visa. The visa application can take up to 2-3 months.
8. Pack your bags and be ready to commence at your new employer in the USA!

Our free service includes:

- Guaranteed employment in an area of your choice - hospital, private or aged care.
- Flexibility of long term or temp work or both (temp assignments will usually be around 3-6 months) Although you will still need to commit to a minimum of 2 years work in total.

- Arranging your US work visa
- Assistance with document credentialing and licensure
- NPTE Exam filing and preparation
- Reimbursement of NPTE exam, flight and accommodation costs to Hawaii to sit the NPTE
- Assistance with licensing as a Physiotherapist in the USA
- 1 month initial accommodation in the US
- Flights to USA
- Health insurance
- Starting salaries between 50,000 and 60,000 USD dependent on experience and work location
- Salary increase after 12 months

Call us today on 1800 33 05 33 to discuss your plans with one of our professional consultants or email your CV to: info@hsr.com.au and we will contact you within 24 hours.

GP VACANCIES AROUND AUSTRALIA & NZ
